PB 2381 GT

2.3 RM

- Packed with yield potential
- Excellent standability
- Attractive branchy plant

NEW

GLYPHOSATE
TOLERANT

PLACEMENT

<i>Plant Type</i>	Medium-Bushy
<i>Plant Height</i>	34
<i>Emergence</i>	1.2
<i>Lodging Score</i>	1.2
<i>Shattering Score</i>	1.5
<i>Flower Color</i>	Purple
<i>Pubescence Color</i>	Gray
<i>Pod Wall Color</i>	Tan
<i>Hilum Color</i>	Imp Black

AGRONOMICS

<i>Stress Tolerance</i>	Excellent
<i>Iron Deficiency Chlorosis</i>	2.4
<i>Brown Stem Rot</i>	NA
<i>Sclerotinia White Mold</i>	2.5
<i>Sudden Death Syndrome</i>	2.5
<i>Soybean Cyst Nematode</i>	NONE
<i>Stem Canker</i>	NA
<i>Charcoal Rot</i>	NA
<i>Frog Eye Leaf Spot</i>	NA
<i>Phytophthora Gene</i>	Rk(Rps1k)
<i>PRR Field Tolerance</i>	1.5
<i>Resistance</i>	NA
<i>Moderate Resistance</i>	NA

Seed containing a patented trait can only be used to plant a single commercial crop from which seed cannot be saved and replanted. Examples of seed containing a patented trait include but are not limited to Genuity® Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, Genuity® Roundup Ready® spring canola, and Genuity® Roundup Ready® winter canola. Additional information and limitations on the use of these products are provided in the Monsanto Technology Stewardship Agreement and the Monsanto Technology Use Guide. U.S. patents for Monsanto technologies can be found at the following webpage: <http://www.monsantotechnology.com>

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Certain products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. **Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Growers should refer to <http://www.biotradestatus.com/> for any updated information on import country approvals.** Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING. IT IS A VIOLATION OF FEDERAL AND STATE LAW to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. IN CROP USES MAY NOT BE APPROVED IN ALL STATES. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans.

Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or refer to Monsanto's Technology Use Guide for recommended weed control programs.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® technology contains genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Acceleron®, Roundup Ready 2 Xtend®, Genuity®, Roundup Ready 2 Yield®, Roundup Ready PLUS®, Roundup®, and Roundup Ready® are trademarks of Monsanto Technology LLC.

LIBERTY LINK Seeds containing the LibertyLink® trait may be protected under one or more U.S. patents and may be planted only to produce one (1) commercial crop in a single season, and only after signing a BASF Grower Technology Agreement. It is illegal to save seeds containing the LibertyLink trait for use as planting seed or for transfer to others for use as planting seed. LibertyLink® GT27™ soybeans offer triple stack tolerance to Liberty, glyphosate, and, pending EPA approval, the first HPPD based herbicide for soybeans. LibertyLink GT27 is not tolerant to all HPPD herbicides. HPPD herbicides currently on the market are prohibited for use with LibertyLink GT27 soybeans and may result in significant crop injury. Always read and follow label directions. Liberty and LibertyLink are registered trademarks of BASF. GT27 is a trademark of MS Technologies and BASF. MS Technologies is a trademark of MS Technologies, LLC. ©2018 BASF Corporation / MS Technologies, LLC. All Rights Reserved. APN 18-INT-0014

ILeVO, InVigo, Liberty, LibertyLink, Poncho, VOTIVO, and the Water Droplet Design are registered trademarks of BASF. Always read and follow label instructions. Not all products are registered for use in all states. ©2018 BASF Corporation. All Rights Reserved. APN 18-INT-0014.
