

Partners Brand

SEED GUIDE
FALL **2026** — SPRING **2027**

Simply Great Seed

Partners Brand

Our Mission

To help our customers by supplying the appropriate products at a fair price. To do business in a Christian like manner with quality, simplicity, integrity, and honesty in everything that we do.

Our seed corn is produced under irrigation in Howe, Indiana by Lord's Seed — one of the most respected wholesale seed producers in the world.

As an independent seed company, Partners Brand offers you choices. We have licenses from many different genetic suppliers, including all of the major suppliers. We can pick and choose the best from each program to offer you cutting-edge genetics and traits, as well as a number of cross source hybrids with parents from two different breeding programs. This genetic diversity keeps our customers from planting a dangerously narrow band of genetic material.

We offer traits, but don't push them where they don't make economic sense for the customer — as witnessed all too often with other companies.

Our core values of integrity and honesty prevent us from promoting products that harm our customers to enhance our bottom line. We want to help you add to your bottom line!

Believing in fair pricing, we don't have to impress Wall Street; we only need to impress our customers. We keep it simple by offering great seed products and not playing complicated marketing games.

IF YOU ARE LOOKING FOR DIVERSE CHOICES, WE OFFER:

- » Large selection of **CONVENTIONAL CORN HYBRIDS**
- » Wide variety of **TRAITED CORN HYBRIDS**
- » Several **WAXY HYBRIDS**
- » Various **HIGH OIL HYBRIDS**
- » Selection of **E+ HIGH ENERGY HYBRIDS**
- » Unique **HIGH ROW COUNT HYBRIDS**

PB CORN TREATMENT PACKAGE

CruiserMaxx® Vibrance® Corn	CruiserMaxx® Vibrance® Corn delivers strong insect and disease protection with enhanced root health to support reliable emergence, improved stands, and early-season vigor.
Cruiser® 5FS	Cruiser® 5FS delivers strong early-season, broad-spectrum insect protection, safeguarding every seed for optimal stands, uniformity, vigor, and improved yield potential.
Vibrance® Cinco	Vibrance® Cinco delivers five powerful fungicide actives and five modes of action for the most consistent, comprehensive seed-applied disease protection available today.
Vayantis®	Vayantis® delivers significantly stronger protection with overlapping, effective modes of action to combat all known U.S. Pythium species in corn.
Trebuset®	Trebuset® protects crops from a broad spectrum of early-season diseases and root rots caused by Fusarium and Ascochyta, helping plants start strong. It safeguards developing roots to support stand establishment and boost early-season vigor.
PMZ DRY	PMZ® DRY is a dry seed nutritional that drives early root growth and vigor, helping plants better handle cold and water stress and move confidently through early vegetative growth.

Contains a single-bag integrated refuge solution for above-ground insects. In EPA-designated cotton-growing counties, a 20% separate corn borer refuge must be planted with PowerCore Enlist Refuge Advanced products.

HYBRIDS THAT DELIVER FOR SILAGE

When it comes to silage, not all corn is created equal. Our silage-ready hybrids are bred and tested to deliver high-energy, high-nutrition feed that performs in the bunk and in the barn. These silage-ready hybrids offer:

- **Improved protein content** for balanced rations
- **Higher NDFD 30 scores** for better fiber digestibility
- **More milk or meat per ton** — better returns from every acre
- **High Oil Hybrids** — Excellent option for those feeding poultry or other animals that desire more calories per pound or more essential amino acid nutrition through a higher oil content.

Whether you're feeding a dairy herd or growing for beef, our silage-ready hybrids help you get the most from your silage ground. We're committed to growing the best seed, delivering it to your farm at a fair price, and backing it with exceptional service every step of the way.

PB 5302

83 DAY

AVAILABLE AS

Conventional

OR

- Very good seedling vigor and emergence
- Medium plant height with excellent stalks and roots
- Great choice for variable soils

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 5756

87 DAY

AVAILABLE AS

Conventional

OR

- Excellent early vigor and emergence
- Versatility across any soil type
- Great late-season plant intactness
- Strong test weight
- Terrific early silage option

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 5904

89 DAY

AVAILABLE AS

NEW

Conventional

OR

- Top yield for maturity
- Very nice late season Staygreen and plant intactness
- Dual-purpose
- Strong on Tar Spot

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6044

90 DAY

AVAILABLE AS

- Strong Eastern hybrid
- Widely adaptable across soil types and populations
- Strong seedling vigor and emergence
- Excellent stalks

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6050

90 DAY

AVAILABLE AS

OR

- Excellent emergence and strong early plant vigor
- Improved plant health with Anthracnose Stalk Rot (ASR) gene
- Widely adapted across Northern corn belt
- Very good drought tolerance

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6255

92 DAY

AVAILABLE AS

OR

- Outstanding early vigor
- Yields on any soils
- Great for corn-on-corn
- Excellent eye appeal
- Reliable and consistent

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6301

93 DAY

AVAILABLE AS

- Very attractive, high yielder
- Good dual-purpose option
- Strong emergence
- Widely adaptable and consistent
- Excellent late-season Staygreen and intactness

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6332

93 DAY

AVAILABLE AS

- Excellent in all environments
- Nice dual-purpose hybrid
- Very nice fall plant intactness
- Strong test weight with deep kernels

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6692

96 DAY

AVAILABLE AS

- Hot 96 day hybrid
- Strong multi-year yield data
- Fast starter – jumps out of the ground
- Excellent disease package
- Dual-purpose

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6885

98 DAY
AVAILABLE AS

Conventional

OR

VT Double PRO
RIB COMPLETE

- Performs very well under stress
- Nice ear flex gives wide population adaptability
- Keep in zone and North
- Dual-purpose

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 6962

99 DAY
AVAILABLE AS

Conventional

ASR

- Top-end yield potential with high management
- Excellent plant health and late-season intactness
- Improved plant health with Anthracnose Stalk Rot (ASR) gene
- Excellent silage corn

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7184

101 DAY
AVAILABLE AS

Conventional

OR

POWERCORE
Enlist
REFUGE ADVANCED

- High yield over several years!
- Excellent on Tar Spot
- Good silage variety
- Very nice fall look

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7196

NEW

101 DAY
AVAILABLE AS

Conventional

OR

- Tremendous yield potential
- Impressive flex ears allow mid to lower populations
- Strong early vigor and emergence
- Excellent silage option – white cob!
- Nice fall look

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7230VP

HIGH OIL

102 DAY
AVAILABLE AS

Agrisure[®]GT

- More fat, higher protein, and increased calories per pound
- Great plant type with broad leaf area and good plant height
- Excellent feed option
- Deer love it

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7250

102 DAY
AVAILABLE AS

DuracadeViptera[™]

- Excellent test weight
- Top-end yield potential
- Excellent plant health and late-season intactness
- Strong roots and stalks
- Widely adaptable

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7302

NEW

103 DAY
AVAILABLE AS

- Strong roots and stalks
- Excellent test weight and grain quality
- Excellent early vigor
- Long ears with nice kernel depth
- Nice fall look

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7370

103 DAY
AVAILABLE AS

OR

- Yield leader in 103 day maturity
- Multi-year strong yield data
- Takes stress like a champ
- Very consistent across all yield ranges
- Must plant 103 day rock star

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7427

104 DAY
AVAILABLE AS

OR

- High yield with excellent test weight
- Nice late-season plant health
- Good Tar Spot tolerance
- Consistent, girthy ears
- Push population on good dirt

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7618

NEW

106 DAY
AVAILABLE AS

Conventional

OR

- Nice top end yield potential
- Solid drought tolerance
- Strong test weight
- Very consistent performance

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7705

NEW

107 DAY
AVAILABLE AS

Conventional

OR

- Strong multi-year data
- Best on medium to better ground
- Large ears with open husks

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7779

107 DAY
AVAILABLE AS

Conventional

OR

- Strong on Tar Spot
- High-end yield potential
- Widely adapted across soil types and populations
- Available as Organic PB 77C079

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7783

107 DAY
AVAILABLE AS

Conventional

OR

- Excellent disease package
- Great standability
- Top-end yield
- Widely adaptable and consistent
- Strong on Tar Spot

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7881

108 DAY
AVAILABLE AS

Agrisure 3010 LIBERTY LINK

OR

- New Duracade® option!
- High yield with wide adaptability
- Excellent agronomics
- High test weight

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

CL 780

108 DAY
AVAILABLE AS

Conventional

- Good roots, stalks, health, and flex
- Great dual-purpose option
- Excellent overall disease package and stress tolerance
- Moderately priced

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7896

108 DAY
AVAILABLE AS

- 108 day yield leader
- Very strong roots with strong stalks
- Excellent on Tar Spot
- Goes anywhere

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7910WX

109 DAY
AVAILABLE AS

ASR

- Popular waxy variety with excellent yield
- Improved plant health with Anthracnose Stalk Rot (ASR) gene
- Strong stalks and roots
- Weak on tar spot

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7921

109 DAY
AVAILABLE AS

HRC

- Large girthy ears
- Strong Plant Health
- Can take heat and stress
- High Row Count (HRC) – do not plant over 27k

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 7982

NEW

109 DAY
AVAILABLE AS

Conventional

OR

- Earlier version of PB 8282
- Excellent top end potential
- Likes medium to better soils
- Nice ear flex

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8003E+

HIGH OIL

110 DAY
AVAILABLE AS

Conventional

- More fat, higher protein, and increased calories per pound
- Excellent feed option
- Deer love it

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8014

110 DAY
AVAILABLE AS

Conventional

OR

- Medium plant stature with top-end yield
- Great stalks and roots
- Consistent ears with deep kernels
- Widely adaptable and consistent
- Great silage option

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8056

NEW ASR

110 DAY

AVAILABLE AS

- Excellent early vigor and emergence
- Strong stalks and roots
- Nice kernel depth and test weight
- Consistent in nearly any environment

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8071

110 DAY

AVAILABLE AS

OR

- Likes higher populations
- Takes stress and less productive soils
- Excellent on foliar diseases

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8105

111 DAY

AVAILABLE AS

OR

- Attractive plant with high yield
- Excellent test weight and grain quality
- Good tolerance to Tar Spot
- Nice late-season look with great Staygreen
- A Best Blend variety

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8264WX

ASR

112 DAY

AVAILABLE AS

Conventional
WAXY

- Hot waxy with excellent yield
- Improved plant health with Anthracnose Stalk Rot (ASR) gene
- Good test weight, good stalks, and excellent roots
- Nice late-season eye appeal

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8282

112 DAY

AVAILABLE AS

Conventional

OR

- 112 day dominant hybrid
- Great ear flex – likes more moderate populations
- Strong silage option
- Very nice fall look
- Must plant 112 day rock star

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8287WX

112 DAY

AVAILABLE AS

Conventional
WAXY

- Great emergence and strong roots
- Excellent silage option
- Develops big, long, showy ears
- Consistent plant type that works well moving East

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8321

HRC **HIGH OIL**

113 DAY
AVAILABLE AS

Conventional

- Large girthy ears
- Strong Plant Health
- Can take heat and stress
- High Row Count (HRC) – do not plant over 27k

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8333

113 DAY
AVAILABLE AS

Conventional

OR

Agrisure Above **Duracade**

- Great choice and a must grow!
- Good choice for no-till
- Outstanding health and yield
- Very consist across many environments – goes anywhere
- Old reliable

Rating Scale: 5= Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Fair

PB 8335

TRUSTED SEED FINANCE SOLUTION

We recognize that your seed purchase is one of the most important decisions of the season. At John Deere Financial, we know how much weight farmers carry on their shoulders and we hope our personalized solutions can provide some much-needed relief. Using your **Multi-Use Account**, you can counter rising interest rates by **locking in low, fixed-rate financing**, helping you save thousands of dollars and lower your cost per acre.

**Find offers at
InputFinance.com**

The Multi-Use Account is a service of John Deere Financial, f.s.b. For agricultural/commercial use only. Talk to us for complete details. CR0316908

THE NEW STANDARD FOR WEED CONTROL & YIELD PERFORMANCE ENLIST® WEED CONTROL SYSTEM

ON-TARGET APPLICATIONS:
90% less drift than traditional 2,4-D
96% less volatile than 2,4-D ester

Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are labeled for preemergence and postemergence use with PowerCore® Enlist® corn.

- 2,4-D choline
- Glyphosate
- Glufosinate
- FOP Herbicides

HERBICIDE

Enlist Duo®

COLEX-D® technology

- Convenient proprietary blend of 2,4-D choline and glyphosate
- The two modes of action work together to deliver control of yield-robbing weeds and help prevent resistance

Enlist One®

COLEX-D® technology

- Straight goods 2,4-D choline with additional tank-mix flexibility
- Provides additional tank-mix flexibility with glyphosate, glufosinate and other qualified tank-mix products, allowing for a customized weed control program to fit each farm

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

Refuge seed may not always contain the DroughtGard® trait. IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. Herculex® is a registered trademark of Dow AgroSciences LLC. Agrisure Viptera® is a registered trademark of a Syngenta group company. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. Acceleron®, DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, SmartStax®, Trecepta®, VT Double PRO®, and VT4PRO® are trademarks of Bayer Group.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Agrisure®, Agrisure Viptera®, Agrisure® Above, Agrisure® Total, Duracade®, DuracadeViptera®, DuracadeViptera™Z3, Durastak®, DurastakViptera™, E-Z Refuge®, Viptera® and Viptera™Z3, are trademarks of a Syngenta Group Company. Trademarks are the property of their respective owners. More information about Syngenta corn products are available at <http://www.biotechstatus.com>.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF.

Corn trait technology incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. Herculex® Technology incorporated into these seeds is commercialized under license from Corteva Agriscience LLC. HERCULEX® and the HERCULEX Shield are trademarks of Corteva Agriscience LLC.

YieldGard VT Pro™ is a trademark used under license from the Bayer Group.

© 2026 Syngenta. Important: Always read and follow label and bag tag instructions; only those products labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium-based herbicides.

Seeds containing the PowerCore® Enlist®, PowerCore® Enlist® Refuge Advanced®, Enlist® Corn - REFUGE and Enlist E3® traits are protected under one or more U.S. patents which can be found at www.traitstewardship.com. The purchase of this traited seed includes a limited license to produce a single crop in the United States. The use of seed from such a crop and/or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Corteva Agriscience Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements. To plant PowerCore Enlist, PowerCore Enlist Refuge Advanced, Enlist Corn - REFUGE and Enlist E3 seed, you must have a limited license from Corteva Agriscience (or other appropriate affiliates). In consideration of the foregoing, Corteva Agriscience grants to the Grower a limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, our product launch process for responsible launches of new products includes a longstanding process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end-users must take all steps within their control to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit www.biotechstatus.com. Excellence Through Stewardship® is a registered trademark of Global Stewardship Group.

Properly managing trait technology is key to preserving it as a long term crop protection tool. **Growers who fail to comply with IRM requirements risk losing access to this product.** To help preserve the effectiveness of B.t. corn technologies, growers planting B.t. corn technologies are required to follow an IRM Plan. Consult the Corn Product Use Guide for appropriate refuge configuration options. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology Use Agreement and Product Use Guide. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements. For complete details on IRM requirements for hybrids with B.t. technology, including refuge examples and important information on the use of insecticides on refuge and B.t. corn acres, please consult appropriate Product Use Guide. Go to www.traitstewardship.com to download the latest Corteva Agriscience Corn Product Use Guide.

Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® crops. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and counties; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE AND COUNTY OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CROPS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS. Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at www.traitstewardship.com. POWERCORE® multi-event technology developed by Corteva Agriscience LLC and Monsanto. LibertyLink® and the Water Droplet Design are registered trademarks of BASF. PowerCore® and Roundup Ready® are registered trademarks of Bayer Group. Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. B.t. products may not yet be registered in all states. Check with your seed representative for the registration status in your state.™ Trademarks of Corteva Agriscience and its affiliated companies. POWERCORE® is a registered trademark of Bayer Group. Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. B.t. products may not yet be registered in all states. Check with your seed representative for the registration status in your state.
